

Professional Summary

Entry-level **Software Engineer** with strong knowledge of **Programming, Object-Oriented Programming (OOP), Data Structures, and Software Development Life Cycle (SDLC)**. Experienced in building backend applications using **Python Frameworks (Flask, Django)** and working with databases and cloud platforms. Passionate about building reliable software solutions and contributing to enterprise technology projects.

Technical Skills

Programming Languages: Python (Numpy, Pandas), SQL (Joins)

Frameworks & Backend Development: Flask, Django, CRUD Applications

Software Engineering Concepts: Object-Oriented Programming (OOP), Software Development Life Cycle (SDLC)

Tools & Technologies: Git, GitHub, VS Code

Cloud: AWS (EC2, S3 - Basics)

Projects

Excel Report Automation – A full end-to-end automated data pipelines that reads raw data from any source, cleans it, analyses it, and generates a professional Excel Report.

Technologies: Python, Pandas, OpenPyXL, Matplotlib, Seaborn and Streamlit for deploying

- Developed an end-to-end data pipeline that automatically generates the excel reports
- Deployed as a live web application using Streamlit with one click Excel download.
- Built a Universal File Reader supporting 10+ formats.

Problems Faced:

Only One Data Source Supported, But I performed a Multisource loader with 4 separate loader classes.

➤ [LIVE DEMO](#)

Student Management System | Flask, MYSQL

- Developed a web application using Flask and MySQL for managing student data.
- Implement secure admin authentication using Flask sessions.
- Designed normalized My SQL database with multi-attribute student records.

Virtual Internships

Process Mining Intern

AICTE Eduskills

- Analyzed enterprise workflows using Celonis Process Mining tools.
- Identified inefficiencies in business processes through data-driven analysis.
- Suggested workflow optimizations to improve operational efficiency.

Salesforce Developer Intern

SmartInternz

- Developed and customized Salesforce applications for business workflows.
- Automated reporting and improved data management processes.
- Worked with CRM systems and enterprise applications customizations.

Education

Bachelor of Technology (B.Tech) - **Computer Science & Engineering**

Lendi Institute of Engineering and Technology (Autonomous)

2020-2024 | **CGPA: 6.89**

Training & Certificates

- Data Science using Python & Machine Learning – ExcelR Solutions (Aug 2024 – Jan 2025)
- Python Programming with Flask & Django – DataPro (May 2023 – Oct 2023)
- AWS Cloud Computing (Basics) – DataPro (Jan 2025 – March 2025)
- Data Analyst – Tech Mahindra Foundation (Oct 2025 – March 2026)
